ABOUT

I am an aspiring frontend web developer with a passion for technology. My interest in coding started as a personal pursuit and has since grown into a professional ambition. I am skilled in React and TypeScript, and enjoy creating intuitive and dynamic web applications. In addition to my technical skills, I maintain a healthy lifestyle that fuels my productivity and mental clarity.

SKILLS

React	JavaScript	TypeScript	HTML5 & CSS3
Git	Vite / Webpack	Responsive design	SEO
Vitest	Linux	Problem solver	Detail-oriented
